All ages festivals

Become a child again! Lose yourself in a field of luminescent flowers, in a curious glowing garden. With otherworldly UV characters, the Carnival creates a magical circus playspace like no other.

Step into a dream... follow a mystical garden pathway into a glowing wonderland that will tickle your imagination! Set to an atmospheric soundtrack, this blacklight installation features 'pick up and play' UV circus toys, surrounded by a field of luminescent hand painted flowers and other UV-reactive props and foliage.

Roaming the wonderland are otherworldly glowing characters, and UV gardeners, who tend the garden, play with visitors, and spring into spontaneous circus performance throughout the space. Alternatively, the UV wonderland may be set up as a static installation to create a stunning visual theme for any outdoor evening event.

An unforgettable delight especially suited to outdoor festivals, the UV Wonderland creates a touching and innovative scene of mystical child-like imagination.
